Minutes

Commissioner Curtis moved to approve the minutes of the June 20, 2012 Redevelopment Commission meeting. Commissioner Grama seconded. The minutes were approved as written 4-0.

Project Updates

Parks Superintendent Joe Payne updated the Commission on the following project:

- Wabash Heritage Trail Extension Phases I and II – Phase II of the trail in Happy Hollow Park is substantially complete and being heavily used. A walk-through is scheduled for today to complete the INDOT contract. A sign system for the entire four mile trail network is being developed. A ribbon cutting will be scheduled when the INDOT contract has been completed.

- Public Works Director Dave Buck updated the Commission on the following projects:

- Cumberland Avenue Reconstruction Phase II – Curbs and splitter islands have been completed at the Manchester roundabout by Rieth Riley. Local traffic will be switched over to begin using the roundabout. The section from Cumberland Pointe east to Salisbury Street will be fully closed to allow work to be completed as soon as possible. The proximity of high-voltage power line and underground high-pressure gas main has made the storm line installation extremely difficult and slow. The road is scheduled to be opened by August 10, 2012.

- Yeager Road Phase I – Work on concrete curbs and driveway approaches is underway by Milestone Contractors. This will be followed by installation of the second and intermediate layers of asphalt. The roundabout is estimated to be open the last week of July 2012. Discussion with INDOT to get the speed limit permanently lowered to 35 MPH

beginning at Neil Armstrong to Lindberg Road is underway. Mr. Buck also noted that the Board of Works has approved a quote from Milestone to install five storm crossings under Northwestern Avenue between Lindberg and Yeager Roads which is the first piece of the corridor improvement project to rebuild this gateway to the community.

- Yeager Road Phase II – Plans and specifications are ready to move forward through the bidding process. Confirmation from ARPL for design loads and parameters so that projects are appropriately sized and scoped is pending.
- Street Resurfacing Project – Concrete work has been completed by Rieth Riley. Milling operations in the near-campus and Levee/Village TIF areas will begin next week. Asphalt work should be completed mid-August.
